1. My memo of yesterday provided you with the 1983 budget hearing schedule and an IC Staff memo listing the examiners' areas of interest. Your presentation is scheduled for Monday, 5 October from 3:00 to 5:00, and the examiners' principal areas of interest are noted in Attachment 2 to their memo. They seem particularly interested in breaking out by specialty the numbers of analysts in NFAC and the number of support personnel. They are interested in the need for the Professional Development Theme and its relation to your ongoing effort (5-year plan). Examiners have said they will not need to get into SAFE, as they have previously had briefings on this project. They will, however, need briefings on all other enhancements. [REDACTED]

2. [REDACTED] will be in touch with your staff to coordinate any additional details on the hearing. We assume you and Mr. Hineman will be making the presentation, but you are welcome to invite other members of your staff. [REDACTED]
